

MONEY AND ELECTIONS IN ILLINOIS 2010

STATE BOARD OF ELECTIONS

INTRODUCTION

The Illinois State Board of Elections is pleased to present its tenth report which summarizes the flow of dollars in political campaigns in Illinois. This report reviews contests in the 2010 election cycle. Again we have attempted to paint the "big picture" in an effort to bring some meaningful analysis to the large sums of money spent to elect candidates to public office in this state.

The races covered in this review include contests for Statewide and Judicial offices and the Illinois General Assembly. The information is based on public reports filed with the Board by these committees as required by law. Everything contained in this report represents information that could have been accessed by any member of the public.

The Board appreciated the warm response and helpful suggestions subsequent to the publication of its first nine reports. We hope this latest publication will enhance the current debate on how to regulate money in political campaigns for public office.

We welcome your comments and suggestions at any time.

RECEIPTS AND IN-KIND CONTRIBUTIONS

The receipt and in-kind contributions graph illustrates the amount of in-kind contributions received by House and Senate candidates. In-kind contributions are receipts of goods and services rather than hard dollars.

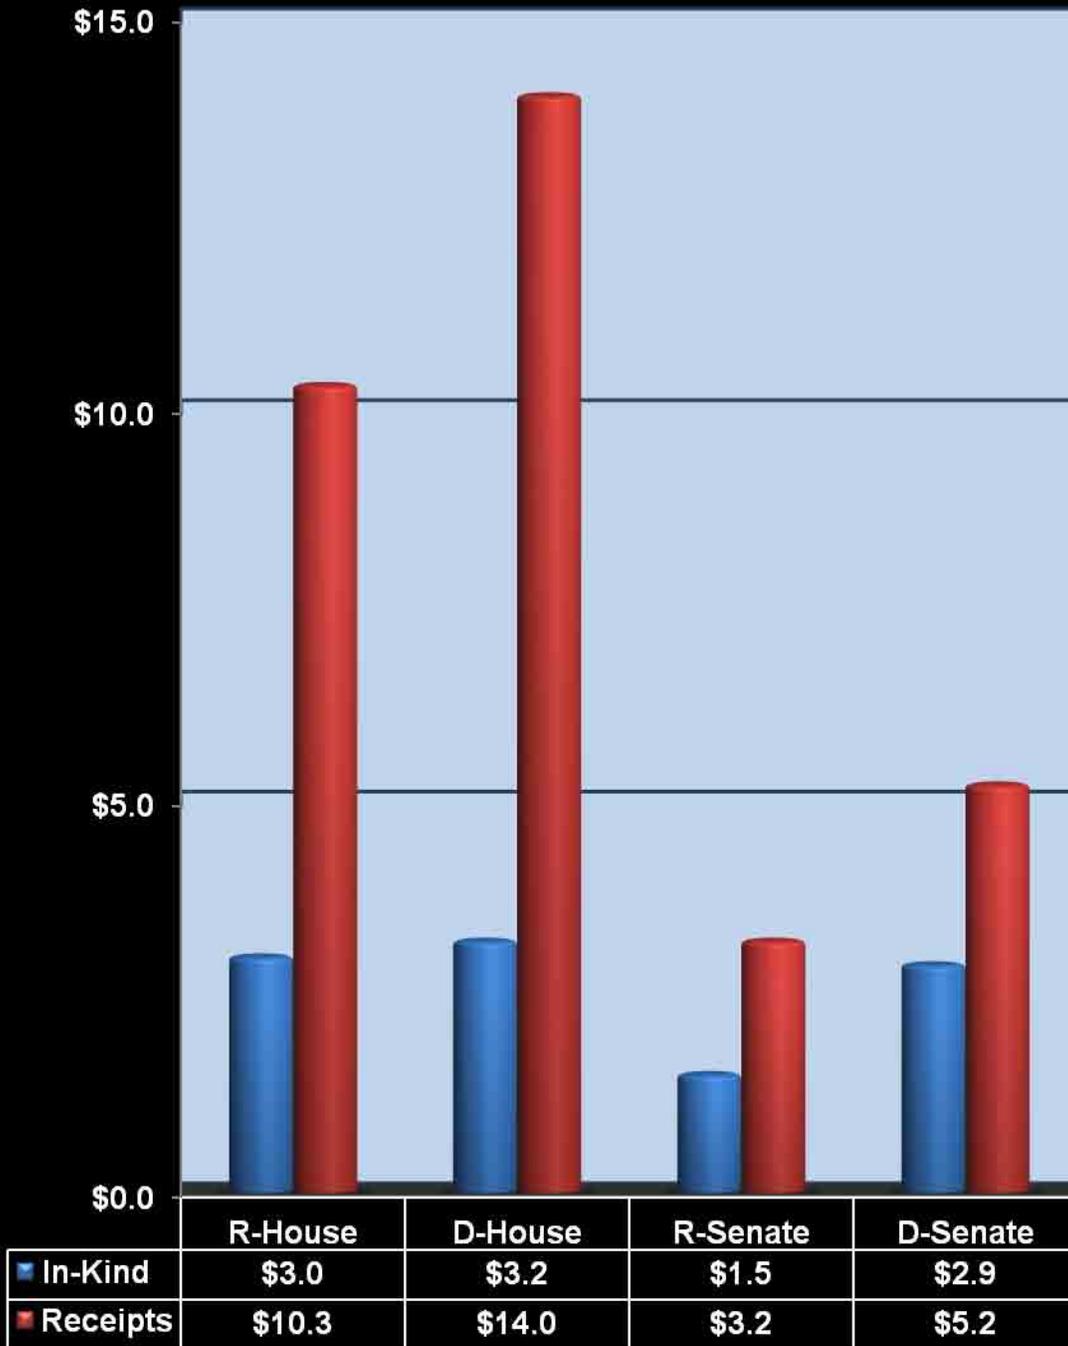

The expenditure and transfer out graph illustrates the monetary donations made by House and Senate candidates as opposed to the regular expenditures of the committees.

The purpose of comparing in-kind contributions to transfers out (monetary donations) is to explore the difference between the two, based upon who decides how such contributions shall be used. Monetary donations can be used as the candidates deem necessary, but decisions regarding in-kind contributions (i.e. printing, radio or TV spots) are made by the committees making the donations in conjunction with the candidates receiving the in-kind contributions.

ELECTRONIC FILING

Political committees that, during a reporting period, reach or exceed \$10,000 in their balances, accumulation of contributions, or aggregate expenditures are required under the Illinois Campaign Finance Act to file disclosure reports electronically.

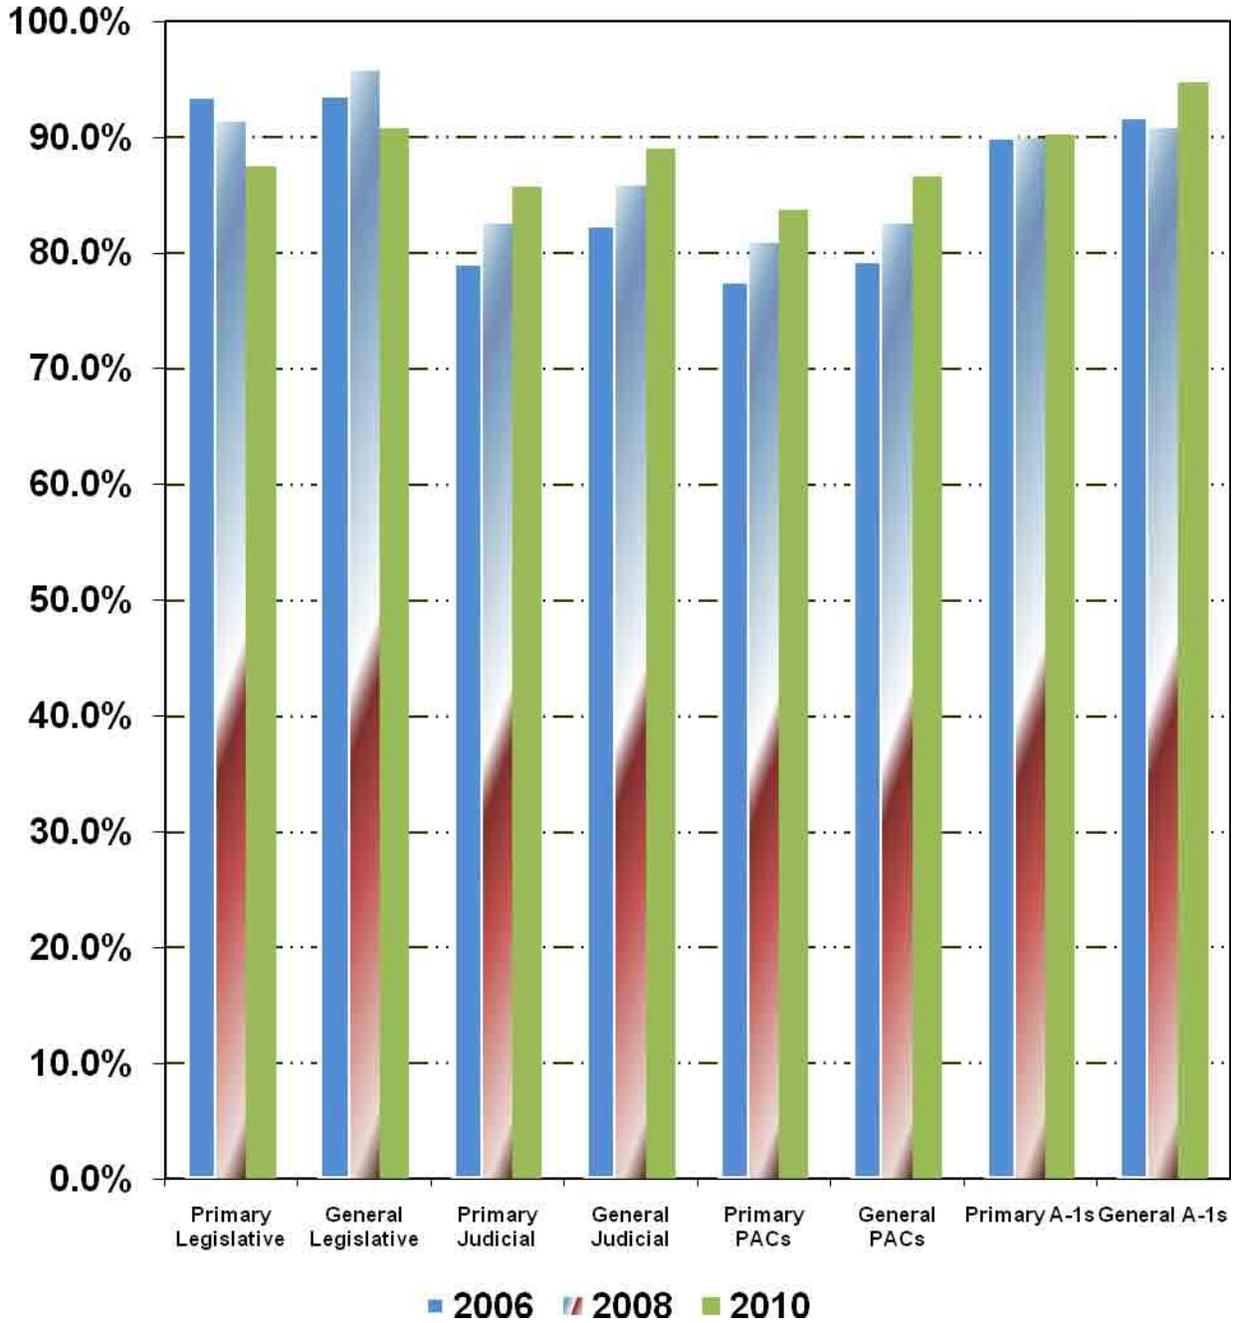

The State Board of Elections provides such committees with filing software at no charge. All reports filed electronically are promptly made available to the public by means of a searchable database on the Board's website, www.elections.il.gov.

The graph on the next page shows the percentage of Legislative and Judicial Committees, as well as Political Action Committees, that filed their 2010 disclosure reports electronically. It also shows the percentage of A-1 reports (receipts more than \$500 from single sources within 30 days of an election) that were filed electronically in 2010. The A-1 data references all political committees.

Electronic Filing of Reports 2010 Elections

Electronic Filing of Reports 2006 - 2010

The following pages portray aggregate campaign finance data for all General Assembly races on the 2008 Illinois ballot. Several explanations are needed before reviewing the data.

In-kind contributions have been added to expenditures to derive a more accurate expenditure per vote. An in-kind represents an expenditure made by another on behalf of the candidate.

Representative District 22 has expenditures reduced by the amounts donated to or spent on the behalf of other candidates. The adjustment was made to reflect the leadership position of the candidate in the above district and more accurately reflect expenditures per vote in this district.

Candidates with no political committee on file are not included. These candidates collected/expended no more than \$3,000 in a 12 month period, which is the statutory threshold for reporting in Illinois.

Candidates with political committees that did not file their Semi Annual reports for either the first six months or last six months of 2010 by March 31, 2011 are also excluded from the corresponding tables.
